## **JOB SUMMARY**

We are looking for somebody in a testing and support role to join our small, welcoming team. We're working on something brand new from the ground up; a suite of products that sets a new benchmark and wows users. Join us in breaking ground on something that's built right from the outset!

## **RESPONSIBILITIES**

- \* Devising and executing functional test scenarios;
- \* Supporting end-users by managing tickets, analysing issues, replicating problems and identifying root causes;
- \* Understanding the scenarios and business processes used by the UK energy suppliers.

## **QUALIFICATIONS**

- \* Minimum of 3 years' experience in a professional testing environment.

## **ADVANTAGES**

Additional experience with *any* of the following is an advantage:

- \* ISTQB Software Testing Foundation qualification;
- \* Familiarity with SQL databases and performing SQL queries;
- \* Any familiarity with .NET Core / Standard or JavaScript-based front-end frameworks.
- \* Experience of working with UK energy suppliers or software vendors.

## **ATTRIBUTES**

- \* A desire to please customers and play a role in ensuring the quality of products.
- \* Experience of working within an agile team.
- \* Strong communication skills.
- \* Tenacity, dedication and inclination to lead.
- \* The ability to innovate.

## **OTHER RESPONSIBILITIES**

\* Establishing and standardising operational process within the business.
